

# Dissolved Ozone Monitor Q45H/64

## Project: Supply of dissolved ozone monitors

### Location: Turkey

#### Project Summary

The project involved the supply of dissolved ozone monitors for the control of sanitization of an ultrapure water loop at a pharmaceutical plant.

#### Project Scope

- Supply of monitors
- Calibration and commissioning
- Training

#### Added Value/Benefits

The ozone monitor is very easy to calibrate and does not require specialized equipment or a visit from the manufacturer.

Reduced calibration costs

Greater reliability of sanitization
